

THE
£2 MILLION
STOCK MARKET STRATEGY:
YOUR MASTERCLASS WORKBOOK

Congratulations on joining Investment Mastery's Stock Market Masterclass, the first step toward taking control of your financial future!

You're here because you want to:

**BUILD
WEALTH**

**TAKE CONTROL OF YOUR
FINANCES**

**SECURE YOUR
FINANCIAL FUTURE**

But let's be clear - this isn't a "get rich quick" scheme. Success in investing doesn't happen overnight or by watching a random YouTube video. It takes the right mindset, strategy, and commitment.

Right now, we're witnessing potentially the biggest wealth transfer in history - a \$TRILLION dollar move away from traditional stocks to the new technology stocks (AI and blockchain).

The good news? We're here to show you how to take advantage of it and outperform most so-called "professional" investors using a proven, predictable system - no guesswork, just results.

Results that on average make our clients 50.2% returns on their money invested within the first year of joining our training programmes.

HERE'S WHAT YOU'LL LEARN:

- How to make your money work hard for you (so you work smarter)
- How anyone can do this in just 20 minutes a day or less
- How to achieve real financial independence without working harder

That's why we've given you this workbook - to help you take notes and reinforce what you'll learn in this Stock Market Masterclass.

And it is very important that you do take notes - because when you look back through your workbook you will have a reminder of all the amazing things you will experience through your Investment Mastery education and this Stock Market Masterclass!

It will be your forever guide, your inspiration, your motivator!

So... now that you're feeling excited...

Get ready to learn the strategies that can change your financial future!

Investment Mastery is one of the world's leading investment education companies. Our mission is to simplify investing through education so that anyone can take control of their finances and grow their wealth.

ABOUT YOUR TRAINER

Hey, I'm Marcus de Maria, Founder and CEO of Investment Mastery – and your trainer for this Stock Market Masterclass.

My purpose in life: to help as many people as possible achieve financial independence through financial education and smart investing.

I know first-hand how important this is. Back in the early 2000s, I was in serious debt – over £100,000 – because I didn't understand money or investing. I ended up sleeping on my brother's floor until I realised, I needed to make a change and to learn from those who were already successful.

So, I found a mentor, studied day and night, and over time developed my own unbeatable investment strategy.

It changed my life. It made me a multi-millionaire – and, as of today, I have accumulated \$13+ million in cryptos and over £2+ million in stocks through what I am about to teach you.

That's why I started Investment Mastery – because if I can do it, so can you!

For over 21 years, we've helped more than 50,000 people in 25 countries, running 650+ training events to teach our predictable and proven system that is certain to make you wealthy.

So, congratulations on being here! You've already made a smart move, and my team and I are excited to help you take your next steps toward financial independence.

REAL CLIENTS, REAL RESULTS

"I was 52 years old and had just been laid off. I felt like the economy had spat me out. I came to an IM event in London. I didn't have money for a hotel, I couldn't even come by airplane or by train, I took the bus. I slept in the station at St. Pancras. It is pure mindset, pure determination and confidence. I had no experience of investing but I learned the Investment Mastery strategies and made £1.3 million in three and a half years. I'm doubling my money every year, making 100% profits on that."

Rob Aalders

"As a beginner investor, I've generated a 44.5% return in just ten months. My top tip? Look at your "why." I think once you get that really clear it makes a substantial difference for when things go well, and not so well, you can keep going back into your "why" and that helps you be motivated." (Tracey went on to make over £30,000 in one month ... tax free!)"

Tracey Hilliard

"I was lost, giving my money to stupid people, financial institutions that weren't doing anything with it. It was the fear of not having enough for my retirement when I got really scared. I thought, okay, enough is enough, I've got to do something about this. Money is slipping through my fingers, I have to take control. My investment grew 30% in just 8 months. I made 136% profit on Tesla, 518% on XRP, always sticking to simple low-risk strategies. These strategies work, but you have to be committed, you have to learn the strategy and actually stick to the strategy."

Amanda Parker-Gammon

"My job is quite stressful and I needed a way to earn money passively to build wealth for my future as I was expected to work until my 60s. In just two years, I turned my £1,500 opening account into £51,000. All this learning with IM I will pass on to my kids! If they want to be painters or musicians, they don't have to worry about money. The things that I want in my future, they're visible to me now, they're not just a pipe dream."

Tom Carr

"My stocks portfolio profits are 100%. I've made 55% on Palantir using VCA. Before I started trading and investing I had zero education. My perception of it went against all my values, I didn't want to be a Gordon Gecko, Wolf of Wall Street. But then, through your education, I came to understand that the stock market is just a collection of businesses that are looking to raise capital, and that changed my perception. I would say to women, invest absolutely. It gives you independence, you get to stand on our own two feet, get financial control, forge your own path."

NEXT STEPS AFTER THE MASTERCLASS

OUR 3-STEP STOCK INVESTING EDUCATION & TRAINING SYSTEM

For over 10 years, my team and I have developed a training program that has cost well over £176,000 to build. This membership known as “Your Trading Club,” has had 12 different iterations to get it to where it is today – an unbeatable system when followed correctly.

Our System consists of:

1

PROVEN STRATEGIES

2

UNPARALLELED SUPPORT

3

THRIVING COMMUNITY

1 PROVEN STRATEGIES

No one will care for your money more than you do, so we empower you to take charge of your financial future.

Our proven strategies show you how to generate monthly trading returns of 3% on average or more – without relying on banks, brokers, or financial advisors. We break down complex investment strategies into simple, actionable steps so you can easily implement them.

No unnecessary jargon, no over-complication – just straightforward, proven methods to grow your wealth efficiently.

It works for us – it will work for YOU. No if's, what's or but's – these steps are PROVEN (as you can see from our countless 5-Star testimonials and video testimonials).

OUR VALUE COST AVERAGING STRATEGY IS JUST ONE OF 3 UNBEATABLE STRATEGIES!

PCA STRATEGY:

5%-7% per year, automated

VCA STRATEGY:

15% per year, 20 minutes a month

BUFFALO STRATEGIES:

35%-75% per year, 20 minutes a day

It all begins with this Masterclass.

The Masterclass is the perfect introduction to what we know and what we do.

Accessible and interactive, our Masterclasses provides real-world investing insights tailored for all experience levels.

Whether you're a beginner or a seasoned investor looking to refine your skills, our live training ensures you gain practical knowledge to confidently execute profitable investment returns.

Thousands of students have successfully built wealth through our programs.

Our clients continuously tell us that the support we give is second to none!

And that is what we love doing more than anything else – helping you stay on course!

Whether you have questions about strategy execution or need a confidence boost, our experts are here to ensure you succeed every step of the way. .

But there's more...

Live

Q&A

Here's when you can talk to my experienced trading team if you get stuck and jump onto our live Q&A calls three days a week, every week.

That's 144 sessions a year!

We also do lunchtime and evening calls! Wow, right? Where else can you get that kind of support?

Better still, this is for any investor level and IDEAL for beginners. We're always here for you, ready to help you succeed and profit.

3 THRIVING COMMUNITY

When you join Investment Mastery you become part of a thriving community of over 3,200 investors across the world's top financial capitals—including London, Frankfurt, and Stockholm.

With expert mentorship and peer support, you'll never have to navigate the investing world alone.

Learn from those who have already achieved financial independence and tap into a network that keeps you motivated and on track.

Exclusive Online Community & Group

You are basically elevating your journey.

This is where you propel each other's success, inspiring each other and fostering an environment that prepares you for inevitable growth.

In this community, your network directly amplifies your net worth and as the man himself, Warren Buffett, says:

"It's better to hang out with people better than you. Pick out associates whose behaviour is better than yours and you'll drift in that direction."

- Warren Buffett

We hope that once you have experienced our Stock Market Masterclass, it will only be the beginning of your journey with us...

...and that from then on in we will be helping you further with setting clear financial goals and how to stay accountable with structured learning, continuous support, and motivation from our expert coaches and community!

Just imagine – all you need to do is spend 20 minutes a day to achieve consistent monthly investment returns – all while maintaining complete control over your money.

How good does that sound?!

FAQ

WHAT ARE STOCKS?

Stocks (or shares) represent partial ownership in a company – you profit if the company grows or pays dividends. Profits come from rising share prices (capital gains) and regular pay-outs (dividends). It's like earning from Tesla or Apple's success.

IS STOCK INVESTING SAFE?

All investments carry risk; the stock market can rise or fall, but long-term investing often reduces volatility. Diversifying your investments helps manage risk but the real secret is learning proven strategies that work.

HOW DO I BUY AND SELL STOCKS?

You can buy and sell stocks through a stockbroker or an online trading platform.. Buy low, sell high is the basic principle – profits are made when shares increase in value after purchase. On the Masterclass we explain about Shorting, where we make money when markets go down, not just up!

HOW MUCH MONEY CAN I MAKE WITH STOCK MARKET INVESTING?

Returns vary, but the stock markets we trade have historically returned approximately 7% per year over the long term. You earn through share price growth and dividend payments – and the power of compound interest accelerates the growth of your wealth.

HOW DO I STORE MY STOCKS SAFELY?

Stocks are usually held electronically in a nominee (broker) account or a personal CREST account via your broker. Nominee accounts are most common – your broker holds the shares, but you still benefit from price rises and income.

CAN I MAKE PASSIVE INCOME WITH STOCKS??

Yes – many UK stocks pay dividends, which provide regular income without selling your shares. However, never buy a stock just because it gives dividends - our strategies massively outperform dividend stocks.
